

SWBAT: ADD
Integers using
Patterns and rules.

Number Line Method

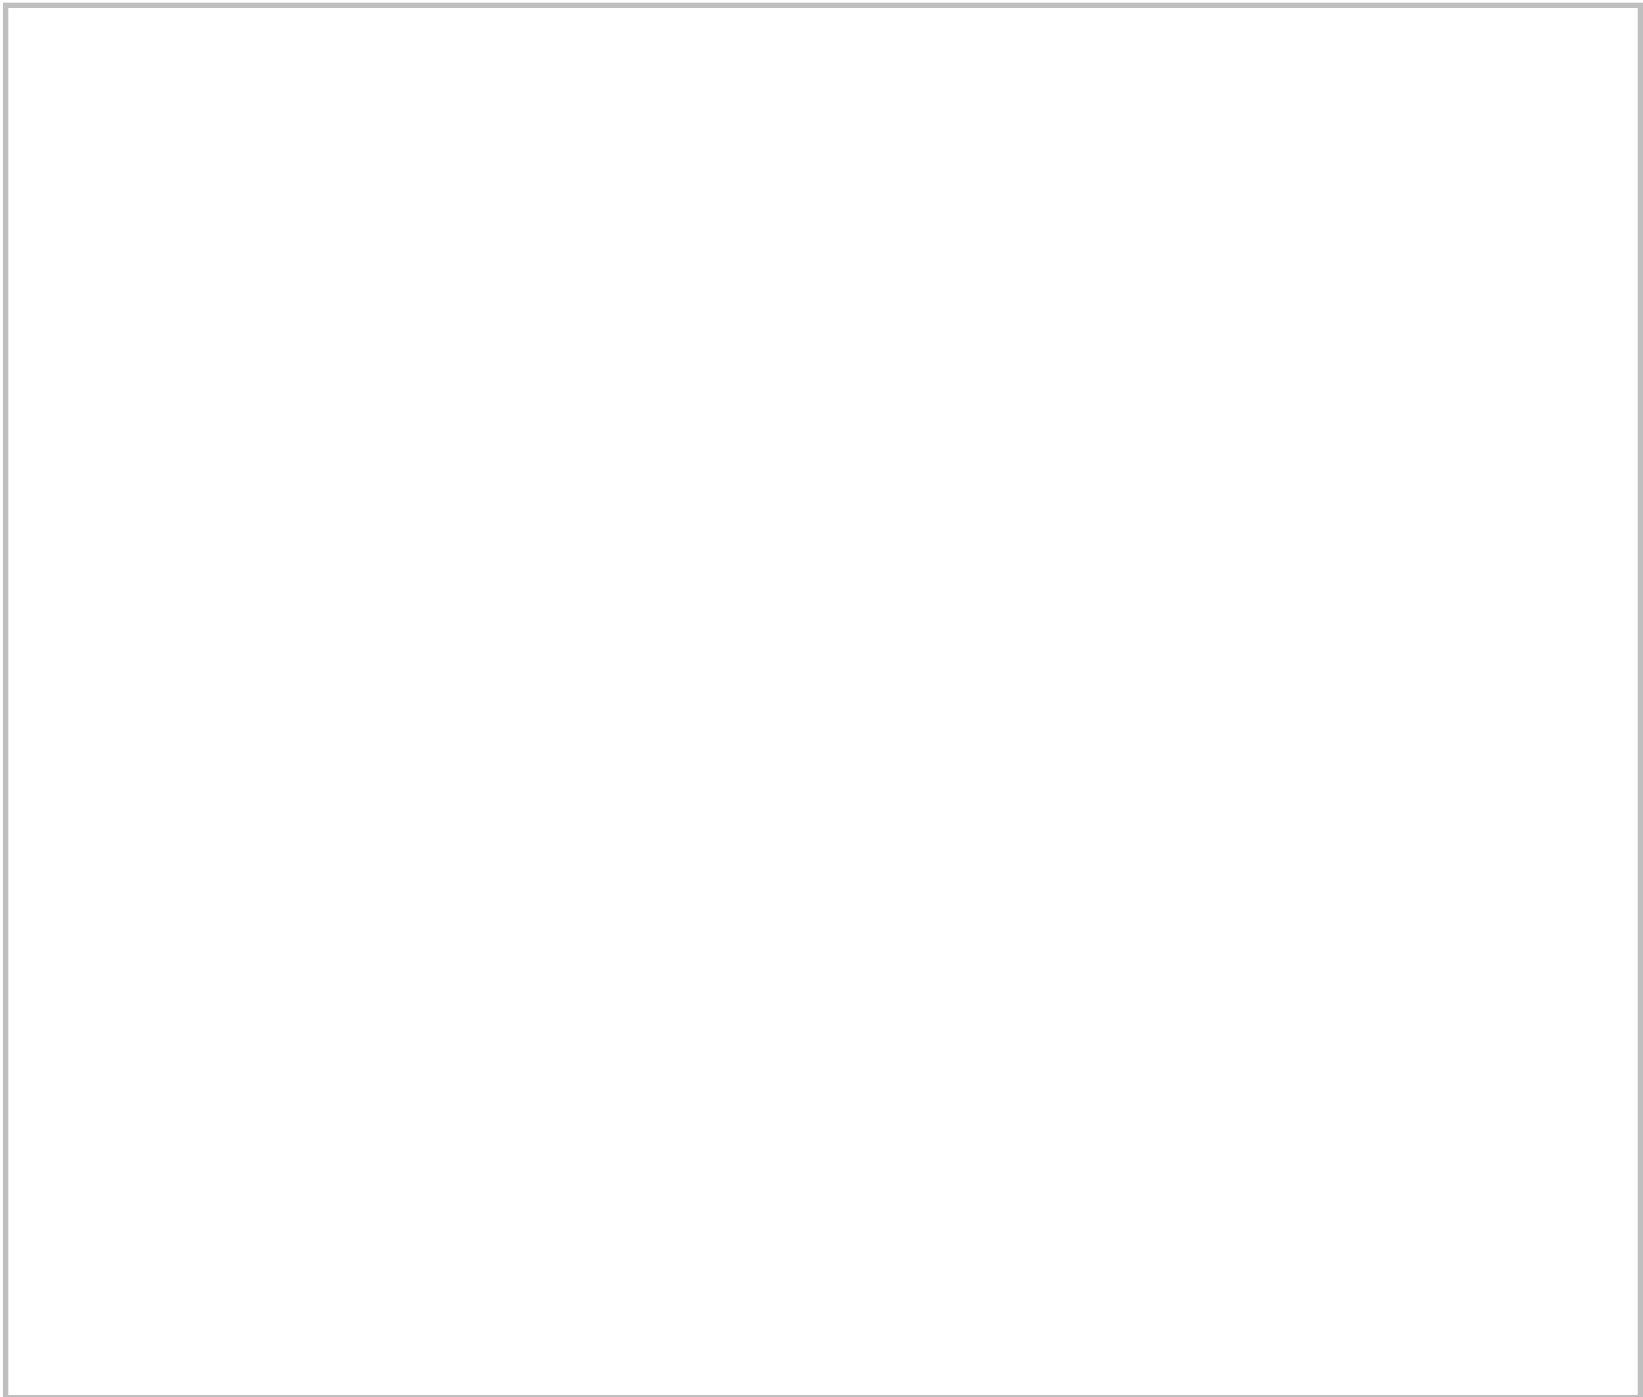

$$6 + -7 = -1$$

$$-20 + 6 = -14$$

Rules to ADD Int. SAME SIGN

① $+$ $+$ $+$ $=$ $+$

$$-8 + -2 = -10$$

② Different sign.

FIND the difference (subtract)
take the sign with the
Greater Abs. value **Holds the**

$$-8 + 10 = 2 \text{ Sign.}$$
$$10 - 8 =$$

$$-20 + 6 = -14$$

What's the Difference?

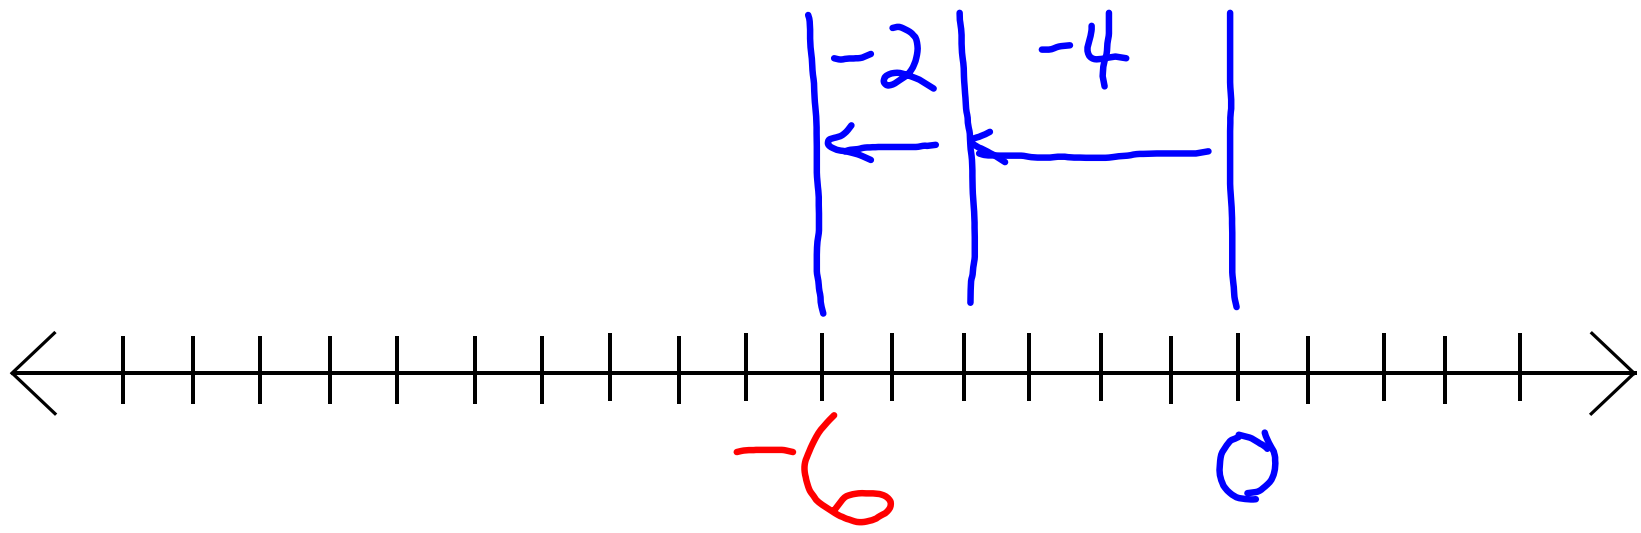

$$1.) 235 + (-420) = -185$$

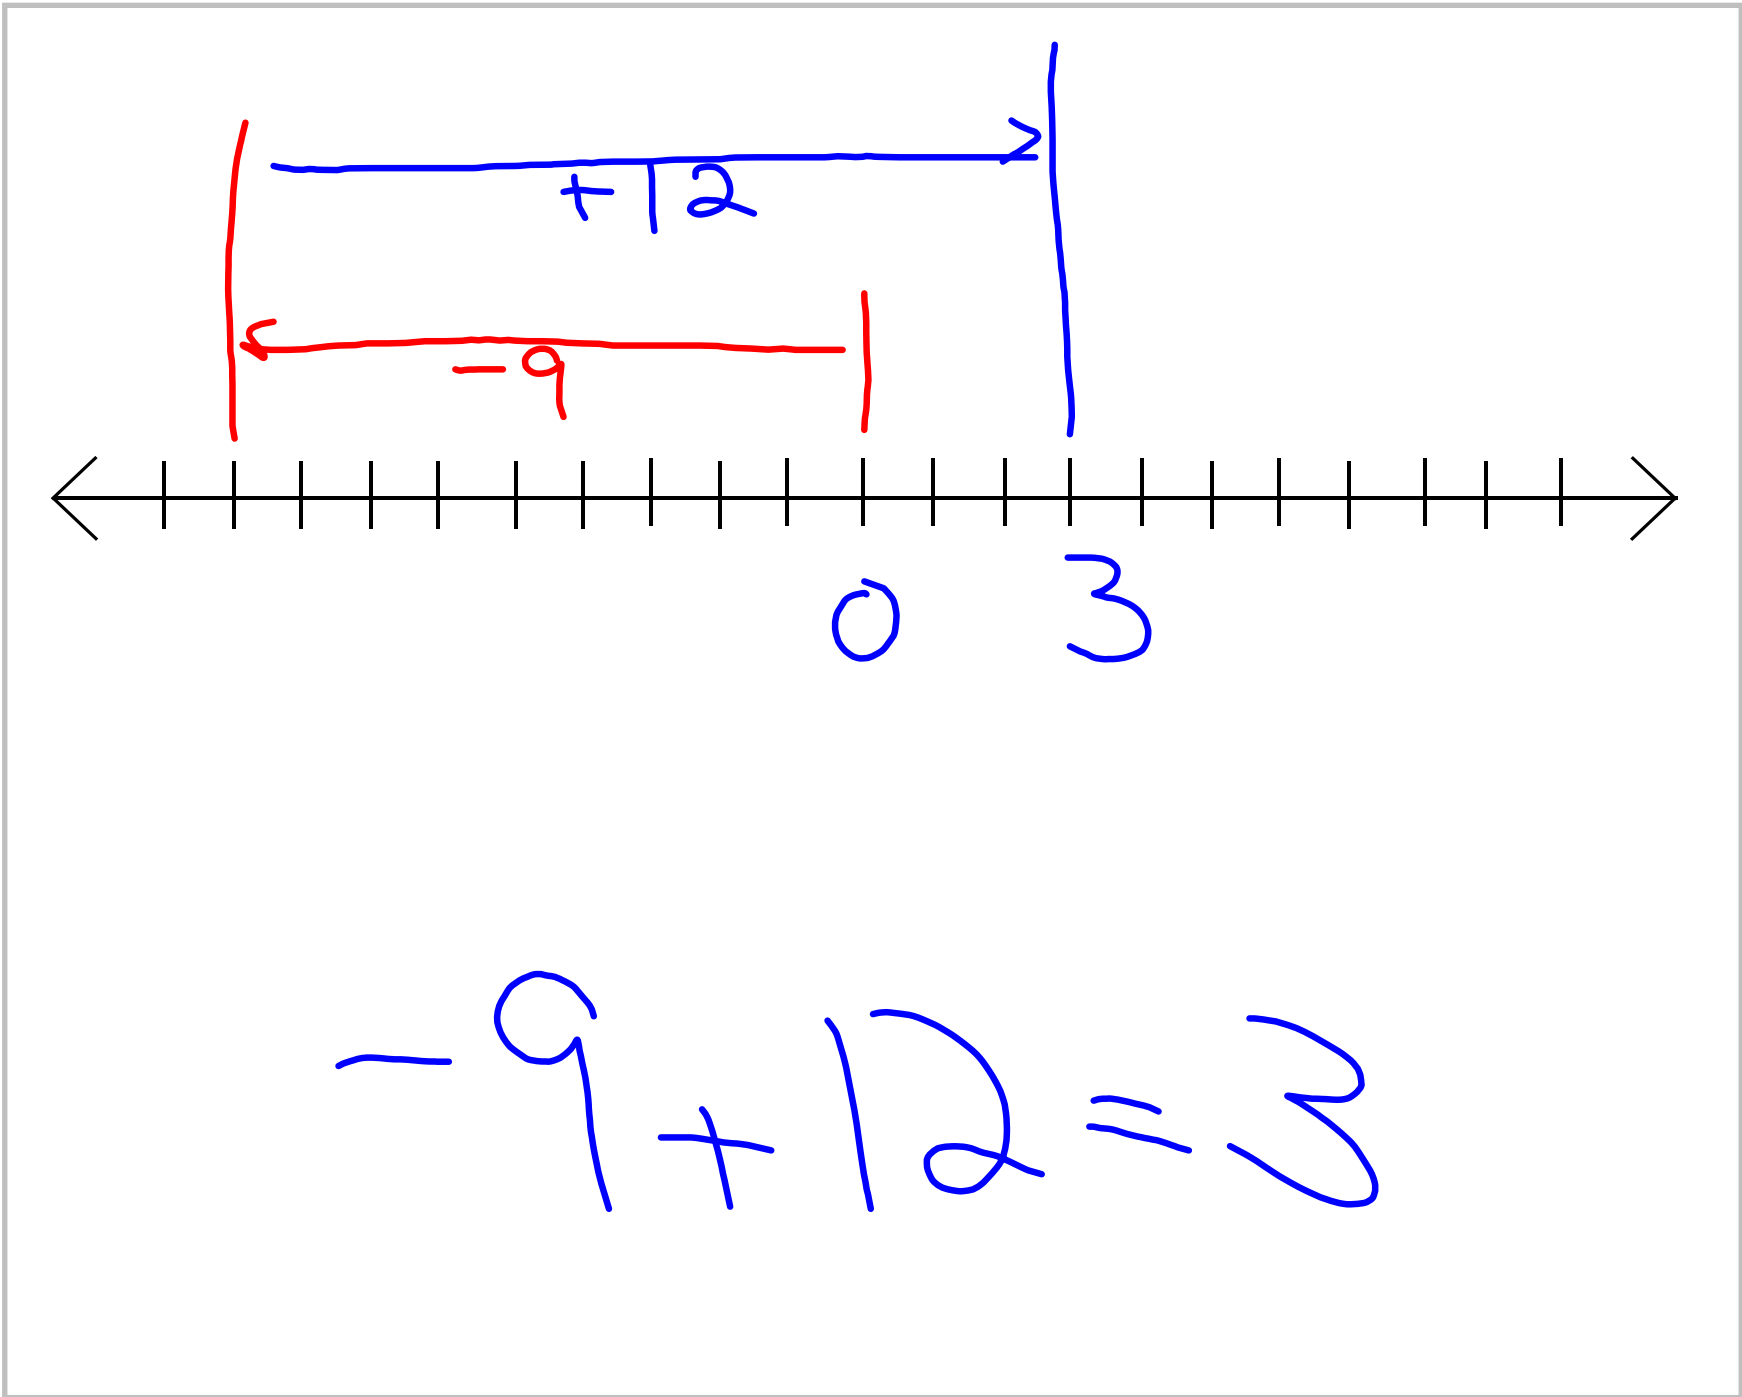

$$2.) 100 + (-100) = 0$$

$$3.) -9 + (-1) + (-4) = -14$$

$$4.) 5 + (-7) = -2$$

$$5.) -7 + (-6) = -13$$

Title: -10 to 10 number line - blank (8 of 9)
