

## VARIABLE Expr.

must have at  
Least One VARIABLE.

$$2 + \underline{x} \quad 2\underline{x}$$

$$\underline{x} - 2 \quad \underline{x} \div 2$$

WORD Phrases

Addition.  $2 + t$

2 plus  $t$  - the sum  
of 2 plus  
 $t$ .

2 added to  $t$

2 and  $t$

$t$  more than 2

2 increased by  $t$

$2t$

two mult by  $t$

two times  $t$

the product of two times  
 $t$

$$t - 2$$

- $t$  minus two
- $t$  subtracted by two  
Deducted.
- the difference of  $t$  minus 2.
- $t$  decreased by 2.  
2 subtracted from  $t$ .

2 Less than  $t$   
2 taken away from  $t$ .

$$t \div 2$$

$t$  divided 2.

the Quotient of  $t$   
and 2.
