

Chapter 9-1 11/27

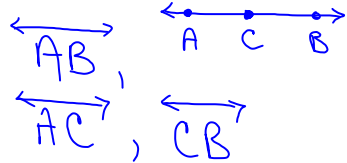

Intro to Geometry

SWBAT: understand
Geometric symbols,
Concepts and vocabulary.

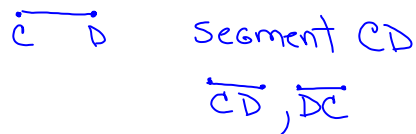

Point: an exact location in
Space.

$\cdot X$ Point X

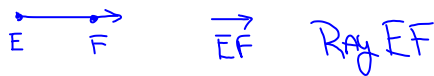

Line: continues without end
in opposite directions

Line Segment: a part of a
Line having in 2 endpoints.

Ray: a part of a Line with
one endpoint.

"Read it + write it From the
endpoint."

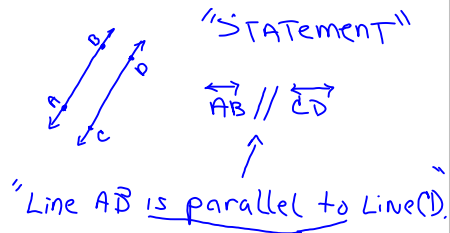

ANGLE: Two RAYS
having a common Endpt.
called a Vertex

PLANE: an endless flat
surface with 3 pts.
Not on a Line

Parallel Lines/segments

Lines that never cross

SKREW LINES: are Lines
that do not share the
Same plane and never
cross.
