

Chapter 9-1 11/27

Intro to Geometry

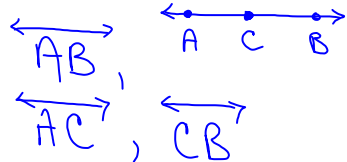

SWBAT: understand  
Geometric symbols,  
Concepts and vocabulary.

---

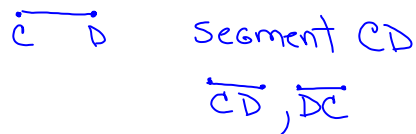

Point: an exact location in  
Space.

$\cdot X$  Point X

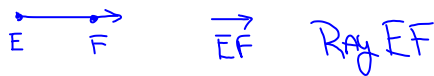

Line: continues without end  
in opposite directions

Line Segment: a part of a  
Line having in 2 endpoints.

Ray: a part of a Line with  
one endpoint.

"Read it + write it From the  
endpoint."

ANGLE: Two RAYS  
having a common Endpt.  
called a Vertex

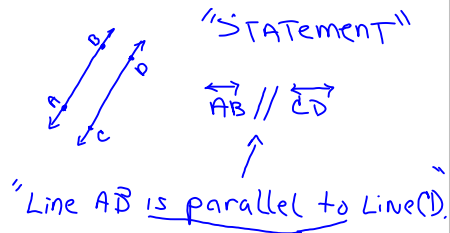

---

PLANE: an endless flat  
surface with 3 pts.  
Not on a Line

---

Parallel Lines/segments

Lines that never cross

---

SKREW LINES: are Lines  
that do not share the  
Same plane and never  
cross.
